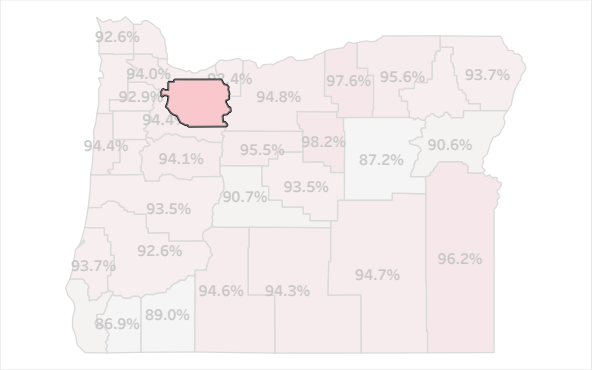
School Immunization Data

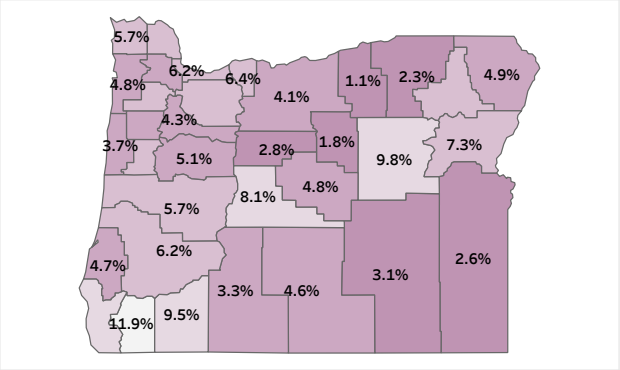
K-12 Data, 2021-2022 academic year

Statewide, 92.6% of K-12 students were complete, 5.9% had a nonmedical exemption for any school-required vaccine, and 2.7% had a nonmedical ..

This map shows the percent of K-12 students with complete school-required vaccines by county. The darker the color, the higher the vaccination rate.



This map shows the percent of K-12 students with a nonmedical exemption to any school-required vaccine by county. The darker the color, the lower the exemption rate.



How does the county school population compare to schools statewide?

Use the county selection tool to change the displays of immunization and exemption rates compared to statewide rates. County and state immunization, exemption and difference measures are rounded to the nearest tenth. Differences are calculated prior to rounding and those highlighted in red reflect immunization measures at the county that are lower or exemption measures at the county that are higher than the state.

Select county Clackamas

K-12 Immunization rates

	Clackamas	Oregon	Difference
DTaP/Tdap	94.8%	94.5%	0.3%
MMR	96.4%	96.6%	-0.2%
