

13 March 2020

Dear Parents,

Thank you for patience and support this week. Today, teachers and students prepared their supplies and teachers communicated their expectations to students. Many students are coming home today with packets, projects, books, and supplies for continued learning. Please wait for teacher instruction on Monday morning.

To ease communication and manage expectations, we have added a page to the school website entitled [Remote/Digital Learning](#) found under the Academics tab. This page contains a new document created with the support of the Archdiocese of Portland in Oregon entitled “[Remote/Digital Learning Protocol for Parents and Families](#).” The page will also contain links to all official communication emailed from the school regarding COVID-19.

Please join me in praying for all students, teachers, and families whose lives have been altered by the presence of the coronavirus in our state. We are blessed to work in a community and school that is prepared to continue the education of our students throughout this closure.

God Bless,

Corrine Buich
Principal
Our Lady of the Lake Catholic School
